Miles Keiser

Berkeley, CA • miles.keiser@berkeley.edu • miles-miles2.github.io (Portfolio)

Education

University of California, Berkeley — Berkeley, CA
Electrical Engineering & Computer Sciences — Graduating 2029
GPA: 3.8

Del Lago Academy — Escondido, CA
Valedictorian Circle, Commended - National Merit Scholarship — 2025
GPA: 4.26 | SAT: 1540
AP Scores: Calculus BC: 5, Computer Science: 5, US Government: 5, English Language: 4

Experience

Opto22
FPGA Internship — Temecula, CA — 07/2026
- Responsible for optimizing access times between IMX6 processor and Cycle IV FPGA
- Used Quartus toolchain and created bash tests scripts to qualify changes for production
- Reduced access time/bus cycle time: Theoretical Limit: 17 to 9 cycles, Practical Limit: 17 to 11 cycles

San Diego Supercomputing Center, UCSD — San Diego, CA
Computational Chemistry Intern — 07/2024-08/2024
- Tested and profiled DeePMD-kit (a software package that uses ML to speed up computational chemistry simulations) on various devices, including Expanse and Voyager supercomputers

CureScience — San Diego, CA
CureScience Scholars Program Intern — Summer 2022, Summer 2023
- Predicted the sensitivity of cancer cell lines using various machine learning techniques in Weka
- Created a combined mutation and gene pathway dataset with Python

Activities

Low Voltage Subteam, Formula Electric Berkeley — 09/2025 - Current
- Assigned to Low Voltage Power Distribution Board (LVPDB) for 2027
  - LVPDB powers all other boards and handles overcurrent protection
- Assigned to Autonomous Relay Control board for 2026
  - Handles Shutdown circuit in autonomous mode and powers Auto Emergency Brake

Combat Robotics Berkeley — 01/2026 - Current
- Led CAD design of 3D printed 1 lb combat robot in Onshape

Robotics Club Vice President — 01/2024 - 07/2025
- Vice president & Mechanical Lead - Senior Season
  - Led design of scoring mechanism

AI Mobile app to help the visually impaired identify currency — Summer 2023
- With help from mentor Amit Gupta, PhD, built an app using Swift and Xcode with data crowdsourcing functionality

Skills

Programming (6 years): Python (4 years), C# - Unity (1 year), Lua - Roblox (2 years), Java (1 year), C (6 mo)
Blender (2 years) | **Onshape** (2 years) | **KiCAD & Altium** (1 year)
